Public Health Services in Our Community

- Prevents epidemics
- Protects the environment, workplaces, housing, food and water
- Promotes healthy behaviors
- Monitors the health status of the population
- Mobilizes community action
- Responds to disasters
- Assures the quality, accessibility and accountability of medical care
- Reaches out to link high-risk and hard-to-reach people with needed services
- Researches to develop new insights and innovative solutions
- Leads the development of sound health policy and planning
Dear Community Residents:

The passing of each year represents an opportunity for our staff and community to reflect on the historical health improvements that have contributed so remarkably to declining mortality rates and an ever increasing span of healthy life. Ultimately, the greatest benefit from the present and past efforts of dedicated public health workers accrue mostly be to the young and yet to be born.

Public Health affects all of us, all of the time through the protection of our food and water supplies, through the promotion of healthy life style, and the early identification of both infectious and noninfectious diseases, through screenings and the provision of appropriate treatment and follow up services. Conversely, the risks associated with under-performance in preventive health services takes a substantial toll on community health, strains the capacity of our health systems, and waste millions of public and private dollars.

The good news is that risks to health are reducible. As always together with our partner agencies in the community, the Department is committed to helping individuals, families, and the community as a whole to promote health. In FY '05 the Department has provided a healthy return on the investment of approximately 11 cents per person per day through a coordinated array of preventive health services. Some of the services include the following:

- Provide assessment, nutrition, support, case management services to >8,000 pregnant women, infants, and children. This includes 43 percent of all pregnant women in the community
- Provide adult and childhood immunizations against a wide array of vaccine preventable diseases (>15,000)
- Protect the community against the spread of communicable diseases through the diagnoses, treatment, case-contact follow up (>6,000 communicable disease cases)
- Assure safer food and water supplies and healthier neighborhoods and housing conditions through inspections (>23,000) and through laboratory testing of samples obtained (>13,000)
- Provide health screenings, clinical exams and related treatment, support and counseling services through clinical health and health promotion services (>9,000 patient visits)
- Provide >15,000 vision and hearing screenings and preventive treatments to school age children
- Provide community health promotion and education activities to >7,000 teens, adults and grandparents through health education programs ranging from life skills to anti-tobacco, to violence prevention, and emergency preparedness

The following pages provide further summary of the activities that have been provided over this past year to protect and improve the health of our community. Everyday an outstanding team of dedicated men and women caringly address the preventive health needs of Rockford and Winnebago County. Thank you for your participation and support that is so vital to successful health status improvements.

Respectfully,

J. Maichle Bacon

*Note: Each reported case requires follow-up interviews, where necessary case-contact follow-up, prophylactic treatment resulting in >4000 contacts.*
**Health Support Services**

*Provides case management and support services to families and pregnant women in our community.*

**Family Case Management**
Supportive services to pregnant women and infants up to the age of one. Services ensure that all families have access to and are receiving necessary community referrals. Family Case Management is offered at the following locations: Division St., North Main Annex, Crusader Clinic, Millennium Center, and South Beloit.
Numbers Served: 8,255 families

**Women, Infants, Children**
(WIC Supplemental Feeding)
Supplemental food program for pregnant women, infants and children up to five years of age.
Total Case Load: 8150  
Clients: 14,038  
Number of Service Contacts: 15,003  
Total Visits: 28,076  

**Lead**
Screening, testing, education and follow-up.
Numbers Served: 1,039 lead tests performed.

**Prevention Initiative**
Early childhood education for the Rockford School District #205 block grant. The grant includes funding for intensive case management services through preventative initiative.
Numbers Served: 36 families received services.

**KidCare**
Enrollment in state health insurance program for children of eligible families.
Numbers Served: 438 applications were initiated for medical insurance coverage.

**Social Work/Mental Health**
Support services for Health Department clients, including neighborhood environment, and community referrals.
Numbers Served: 501 total
HealthWorks
Ensures necessary, quality health care services for foster children in the nine northwest counties of Illinois.
Numbers Served: 1,768 children received services.

Teen Parent Services
Fully integrated with Family Case Management, to provide teen parents with more intensive case management services that focus on educational achievement.
Numbers Served: 217 (unduplicated) clients received services.

Teen Pregnancy Prevention Grant
Services to provide primary and secondary pregnancy prevention to local teens.
Numbers Served: 1,440 teens

Targeted Intensive Case Management
Provides intensive support and case management to women at high risk of delivering a low birth-weight infant.
Numbers Served: Clients delivered 118 infants and 98 (83%) weighed more than 5.5 lbs.

Genetics
Education and service referral for the families of children diagnosed as having birth defects and genetic disorders.
Numbers Served: 1,886 clients received genetics screening.

High-Risk Nursing
93% of all APORS referrals received follow-up, face-to-face services from Medical Case Manager.
Numbers Served: 200 maternal high-risk referrals were processed; 529 HRI/APORS infants were served.
Community Health Promotion

Provides prevention and screening programs to improve the health of those in our community.

Health Promotion:
Promotes health and wellness within our community through awareness, education, screenings and adult immunizations.
Number of Screening/Immunizations: 16,636

Oral Health:
Seeks to reduce the incidence of oral disease through education, referrals and preventive dental treatment in community receiving education.
Number of people served: 15,066
School-based preventative dental treatment includes exams, cleanings, fluoride treatments and dental sealants on income eligible children.
Number of Sealants: 10,441
Number of Exams: 11,540
Number of Cleanings: 6,597
Number of Flourides: 6,736

Audio-Visual Screening:
Provides vision and hearing screenings to all children in preschools, daycare centers and private and parochial schools. Services detect vision/hearing problems that otherwise might go undetected.
Number of Vision Screenings: 11,699
Number of Hearing Screenings: 11,309

Nurse Consultant:
Provides education on all health and safety issues to childcare providers, families and children in child care settings. Links families with children in child care settings to appropriate community resources.
Number of Technical Assists: 161
**Teens Against Tobacco Use (TATU):**
Focuses on increasing youth awareness about the dangers of any form of tobacco use.
Number of TATU Students Served: 857

**Not on Tobacco (NOT):**
Provides teens the opportunity to participate in a school-based, voluntary cessation support program. The programs are designed to help high school students to stop smoking, reduce the number of cigarettes smoked, increase healthy lifestyle behaviors and improve life management skills. A positive behavior change approach that teaches the participant how to become a non-smoker.
Number of Students Served: 145

**Alcohol, Tobacco and Other Drug (ATOD) Prevention:**
The ATOD Comprehensive Prevention and Drug Free Communities programs increase awareness of the affects of underage ATOD use by implementing best practices and policies in the schools and the community. Strategies used are media campaigns, coalition building, activities that promote academics and direct service programs to students.
Number of Students Served: 2,713

**Black Male Health:**
This program provides educational information to black males regarding lifestyle changes in order to reduce health risks. Black males rank last in life expectancy and experience elevated morbidity and mortality. This program also includes Prostate Cancer education and screening.
Number of People Served: 4,069
Number of Materials Distributed: 1,092

**Violence Prevention Collaborative:**
Over 160 formal and informal members from Boone and Winnebago Counties focus on five issues: child abuse, youth violence, partner abuse, elder abuse and community violence. Strategies used to prevent violence and public awareness campaigns; identify coalitions and networks that provide education on youth and family violence; promoting best practices and policies; determine needs and future solutions from accurate reporting of the five focus area statistics.
Number of People Served: 3,954
Number of Materials Distributed: 3,187

**International Travel Consultations:**
Education and immunizations for those going to foreign countries.
Number of Immunizations: 2,998
Inspects, investigates and monitors issues regarding water, food, lead safety and nuisance control.

**Environmental Health**

**Neighborhood Environmental:**
Regulation of hotels and motels, pest control and nuisance resolution. Compliance with minimum housing health codes, lead paint inspections and education on home health hazards.
Number of Inspections: 14,789

**Laboratory:**
Laboratory testing for Health Department Divisions, municipalities and the general public. Major testing includes water and pollen counts.
Number of Environmental Tests: 13,685
Number of RPR (STD tests): 3,634

**Pollution Control:**
Issues and inspects septic systems, tests water wells and monitors air, groundwater and land quality. Periodically evaluates and updates septic codes as needed. Participates with IDPH, IEPA and USEPA on environmental quality and compliance issues.
Number of Tests: 1,450

**Public Facilities Sanitation:**
Plans review, inspection and regulation of food establishments, tanning facilities and public pools. Sanitarians perform routine food establishment inspections as well as investigate complaints about incidents of possible food borne illnesses.
Number of Inspections: 3,304

**West Nile Virus (WNV):**
West Nile Virus was reported in Winnebago County in May. An active surveillance and community education effort was continued throughout the summer. Through the efforts of the department staff and community cooperation, the county had no confirmed cases of West Nile Virus.
Number of Community Contacts: Seven Gravid traps were placed throughout Winnebago County. Approximately 100 homes were canvassed and 1,000 pieces of literature were distributed on mosquito-abatement prevention. 400 calls were received from the general public with questions regarding WNV. 200 dead crow reports were taken.
Vital Statistics

Certificates:
Birth and Death Certificates and burial permits for Winnebago County residents. Official Vital Records registrar for Winnebago County.

Number of Birth Certificates Issued: 6,523
Number of Original Birth Certificates: 4,567

Number of Death Certificates Issued: 22,717
Number of Original Death Certificates: 2,801

Satellite Services:
Hosting of educational/informational Satellite Seminars.

Number of Satellite Teleseminars Hosted: 103

HIPAA:
HIPAA compliance and administration are coordinated for the department.
